English Resultatives Seizi Iwata,2020-03-15 The objective of this book is to develop a force recipient account of English resultatives Within this approach the post verbal NP is a recipient of a verbal force whether it is a subcategorized object or not and the verbal force being exerted onto the post verbal NP is responsible for bringing about the change as specified by the result phrase It is shown that many apparent puzzles posed by English resultatives are due to the complex interplay between the verb meaning and the constructional meaning or between the verb meaning and the semantics of the result phrase Thus the proposed account can provide answers to the question Which resultatives are possible and which are not in a coherent way Also the proposed account reveals that English resultatives are not a monolithic phenomenon and that some resultatives cited in the literature as such are not resultatives at all This book is of interest not only to practitioners of Construction Grammar but also to everyone interested in English resultatives *Teaching Literature to Adolescents* Alan B. Howes,1972 **Teaching Literature to Adolescents** Richard Beach,Deborah Appleman,Bob Fecho,Rob Simon,2016-03-10 This popular textbook introduces prospective and practicing English teachers to current methods of teaching literature in middle and high school classrooms It underscores the value of providing students with a range of different critical approaches and tools for interpreting texts and the need to organize literature instruction around topics and issues of interest to them Throughout the textbook readers are encouraged to raise and explore inquiry based questions in response to authentic dilemmas and issues they face in the critical literature classroom New in this edition the text shows how these approaches to fostering responses to literature also work as rich tools to address the Common Core English Language Arts Standards Each chapter is organized around specific questions that English educators often hear in working with pre service teachers Suggested pedagogical methods are modelled by inviting readers to interact with the book through critical inquiry methods for responding to texts Readers are engaged in considering authentic dilemmas and issues facing literature teachers through inquiry based responses to authentic case narratives A Companion Website <http://teachingliterature.pbworks.com> provides resources and enrichment activities inviting teachers to consider important issues in the context of their current or future classrooms **Disability & the Politics of Education** Susan Lynn Gabel,Scot Danforth,2008 Disability and the Politics of Education An International Reader is a rich resource that deals comprehensively with the many aspects of the complex topic of disability studies in education For nearly two decades global attention has been given to education as a human right through global initiatives such as Education for All EFA and the Salamanca Statement Yet according to UNESCO reaching the goals of EFA remains one of the most daunting challenges facing the global community Today millions of the world s disabled children cannot obtain a basic childhood education particularly in countries with limited resources Even in

the wealthiest countries many disabled children and youth are educationally segregated from the nondisabled particularly if they are labeled with significant cognitive impairment International agencies such as the United Nations and the World Bank have generated funds for educational development but unfortunately these funds are administered with the assumption that west is best thereby urging developing countries to mimic educational policies in the United States and the United Kingdom in order to prove their aid worthiness This McDonaldization of education reproduces the labeling resource allocation and social dynamics long criticized in disability studies The authors in this volume explore these subjects and other complexities of disability and the politics of education In doing so they demonstrate the importance and usefulness of international perspectives and comparative approaches
