mainstream Hollywood films have reached a point of amalgamation with no return which marks the beginning of a fourth age of representations where signs and meanings are manifested in illogical permutations This is more explicit in films that commingle aliens cowboys undead American presidents and zombie nazis joining together in the same narrative ghosts werewolves and vampires aggregating disjointed storylines and historical fake facts all coalesced in an orgy of empty burlesque and infantile masquerades This interdisciplinary research combines cultural studies film criticism art and myth interpretations bringing into the debate multiple concepts from related fields such as critical theory and media criticism The book also opens up to innovative approaches from a wide array of academic disciplines offering researchers students and those fascinated by the transformations happening in contemporary cinema an interpretative tool based on a revised dialectic approach The conclusion is that we are now victims of a zombie semiotics Meaning making in contemporary culture politics and aesthetics is dominated by a process of incessant desecration of significations specific to the total mishmash of representations analyzed here

Women of Feudal Japan

Layla Gupta, The role of women in the Samurai culture of feudal Japan is often overshadowed by their male counterparts However women played a significant part in the preservation and continuation of the samurai tradition While most people associate the samurai with men wielding swords and adhering to the Bushido code women within samurai families were expected to uphold their own set of values and responsibilities These women were more than mere caregivers or household managers many of them were skilled in martial arts served as warriors in battle and played vital roles in defending their families and clans At the heart of the samurai ethos was the Bushido code which outlined the virtues of loyalty honor courage and self discipline While this code was primarily designed for men its influence permeated into the lives of samurai women as well Samurai women were expected to uphold these principles in their own way often by managing the family estate educating children in the ways of honor and maintaining the moral and physical well being of their households In a time of constant war and upheaval their roles were vital in sustaining the family s legacy and honor One of the most prominent ways in which women embodied the values of Bushido was through the concept of the onna bugeisha or female warrior These women were skilled in martial arts particularly the use of the naginata a pole weapon and the katana sword They were trained to fight alongside men in battle defending their homes and family members during times of conflict While the idea of a female warrior may seem unusual in most cultures it was relatively common in feudal Japan where the constant threat of war meant that even women had to be prepared to fight for their survival **Japan Encyclopedia** Louis-Frédéric,2002 Knowing Japan and the Japanese better Louis Fr d ric states in the introduction to this encyclopedia is one of the necessities of modern life The Japanese have a profound knowledge of every aspect and detail of Western societies Unfortunately we in the West cannot say the same about our knowledge of Japan We tend to see Japan through a veil of exoticism as a land of ancient customs and exquisite arts or we view it as a powerful contributor to the global economy the source of cutting edge
