Although no one is considered an expert in all areas of endocrine replacement therapy each of the authors here have extensive knowledge and experience in the management of patients with specific endocrine disorders requiring hormone replacement treatment Although some differences of opinion exist among experts in replacement therapy each writer has attempted to give a balanced unbiased recommendation When comparable regimens exist the authors have made this apparent to the reader who can then choose the best treatment for the individual patient Cost therapeutic effectiveness and route of administration are all important considerations in making the final selection of replacement therapy The Anti-saloon League Year Book Ernest Hurst Cherrington,1929
