The World at War, 1939-1944 United States. War Department. General Staff,1945 The Crecy War Alfred H. Burne,2016-10-14 Crecy the Black Princes most famous victory was the first of two major victories during the first part of the Hundred Years War This was followed ten years later by his second great success at the Battle of Poitiers The subsequent Treaty of Bretigny established the rights of the King of England to hold his domains in France without paying homage to the King of France In this hugely acclaimed military history Colonel Burne re-establishes the reputation of Edward III as a grand master of strategy whose personal hand lay behind the success of Crecy He convincingly demonstrates that much of the credit for Crecy and Poitiers should be given to Edward and less to his son the Black Prince than is traditionally the case With his vigorous and exciting style Colonel Burne has chronicled for the general reader as well as for the military enthusiast one of the most exceptional wars in which England has ever been engaged This book firmly restores the Crecy campaign to its rightful place near the pinnacle of British military history A most important book a work of original research written by a
