War In Europe Guided:

A Guide to Intra-state Wars Jeffrey S. Dixon, Meredith Reid Sarkees, 2015-10-22 This title describes how civil war is defined and categorized and presents data and descriptions for nearly 300 civil wars waged from 1816 to the present. Analyzing trends over time and regions, this work is the definitive source for understanding the phenomenon of civil war.

U.S. Army War College Guide to National Security Policy and Strategy J. Boone Bartholomees, 2001 [The Road to War Germany Part 1](#) John Dunlavy, 2023-05-13 The Road to War series are travel guides to explore the battlefields of Europe from the Romans through WWII. Volume III Part 1 Germany is focused on the battlefields and related history of Germany from Roman Era through the Middle Ages, which includes over 30 color maps, 600 plus places to visit with geo coordinates and dozens of photos. Each chapter contains a detailed summary of battles, tactics, and most importantly, places to see. The places to see have descriptions and geo coordinates for the traveler to use in their planning. Finally, each battle has an associated map and photos highlighting where the battle took place to include formations and angles of attacks.

The Great Asia-Pacific War Annals: A Comprehensive Guide to Battles, Commanders, and Strategies in the Asian and Pacific Theaters Pasquale De Marco, 2025-04-25 The Great Asia Pacific War Annals: A Comprehensive Guide to Battles, Commanders, and Strategies in the Asian and Pacific Theaters. The Great Asia Pacific War, also known as World War II in the Asia Pacific region, was a conflict of unprecedented scale and devastation. This book provides a comprehensive overview of this pivotal conflict, covering the major battles, commanders, and strategies employed by both sides. From the attack on Pearl Harbor to the atomic bombings of Hiroshima and Nagasaki, the Pacific War was a brutal struggle that left millions dead and reshaped the geopolitical landscape of the region. This book delves into the key battles and campaigns that determined the outcome of the war, including the island hopping strategy of the Allied forces, the kamikaze attacks by Japanese pilots, and the use of nuclear weapons. The Asian theater of the war was no less significant, with the Japanese invasion of China, the Burma Campaign, and the Battle of Singapore playing crucial roles in the conflict. This book examines the strategies and tactics used by both sides in these theaters, highlighting the challenges and complexities of fighting in diverse and often inhospitable terrain. Beyond the battlefield, this book also explores the political, social, and economic impact of the war on the region and the world. It examines the rise of nationalism and militarism, the role of propaganda and censorship, and the mobilization of resources and industries for the war effort. With its comprehensive coverage of the Great Asia Pacific War, this book is an essential resource for anyone interested in this pivotal conflict. It offers a fresh perspective on the strategies and tactics used by the belligerents, the impact of the war on the region and the world, and the lasting legacy of this global struggle. U.S. Army War College Guide to National Security Issues: Theory of War and Strategy J. Boone Bartholomees, Army War College (U.S.). Strategic Studies Institute, 2012 This edition of the U.S. Army War College Guide to National Security Policy and Strategy continues to reflect the structure and approach of the core national security strategy.

and policy curriculum at the War College The 5th Edition is published in two volumes that correspond roughly to the Department of National Security and Strategy's core courses Theory of War and Strategy and National Security Policy and Strategy Like previous editions this one is based on its predecessor but contains both updates and new scholarship Over a third of the chapters are new or have undergone significant rewrites Many chapters some of which appeared for years in this work have been removed Nevertheless the book remains unchanged in intent and purpose Although this is not primarily a textbook it does reflect both the method and manner we use to teach strategy formulation to America's future senior leaders The book is not a comprehensive or exhaustive treatment of either strategic theory or the policymaking process Both volumes are organized to proceed from the general to the specific Thus the first volume opens with general thoughts on the nature and theory of war and strategy proceeds to look at the complex aspect of power and concludes with specific theoretical issues Similarly the second volume begins by examining the policy strategy process moves to a look at the strategic environment and concludes with some specific issues This edition continues the effort begun in the 4th Edition to include several short case studies to illustrate the primary material in the volume *Readers' Guide to Periodical Literature*, 1922
