Anna Gotlib

Wave Kindle Edition Sonali Deraniyagala:

The Moral Psychology of Sadness Anna Gotlib, 2017-11-30 What does it mean to be sad What difference does it make whether how and why we experience our own and other people's sadness Is sadness always appropriate and can it be a way of seeing more clearly into ourselves and others In this volume a multi disciplinary team of scholars from fields including philosophy women's and gender studies bioethics and public health and neuroscience addresses these and other questions related to this nearly universal emotion that all of us experience and that some of us dread Somewhat surprisingly sadness has been largely ignored by philosophers and others within the humanities or else under theorized as a subject worthy of serious and careful attention This volume reverses this trend presenting sadness as not merely a feeling or affect but an emotion of great moral significance that in important ways underwrites how we understand ourselves and each other

Postcolonial Disaster Pallavi Rastogi, 2020-04-15 Postcolonial Disaster studies literary fiction about crises of epic proportions in contemporary South Asia and Southern Africa the oceanic disaster in Sri Lanka the economic disaster in Zimbabwe the medical disaster in South Africa and Botswana and the geopolitical disaster in India and Pakistan Pallavi Rastogi argues that postcolonial fiction about catastrophe is underpinned by a Disaster Unconscious a buried but mobile agenda that forces disastrous events to narrate themselves She writes that in disaster fiction a literary Story and its real life Event are in constant dialectic tension In recent disasters Story and Event are tied together as the urgency to circulate information and rebuild in the aftermath of the disaster dictates the flow of the narrative As the Story acquires temporal distance from the Event such as the seventy three years since the partition of India in 1947 it plays more with form and theme to expand beyond a tale about an all consuming tragedy Story and Event are in a constant dance with each other and the Disaster Unconscious plays the tune to which they move Rastogi creates a narratology for postcolonial disaster fiction and brings concepts from Disaster Studies into the realm of literary analysis
