Parents Matter M. Warnasuriya, 2018-05-17 This book discusses the vital part that parents play in the academic achievement of students. It describes the many roles that parents assume in the different educational stages of a child's life, from infancy to late adolescence, and how these roles ultimately impact students' academic and future success. The book explores in detail the impact of parent involvement in early childhood education, middle/junior high, high school education, and with at-risk students. Parent involvement is also a critical factor within the school atmosphere. The book discusses in detail how parent involvement affects the school's caliber to promote student achievement, thus contributing to the overall school improvement process. Practical and research-based strategies are introduced under each parent role, thus enabling the reader, whether it be parent, school administrators, or educators, to apply what was read to the real-life context within the relevant settings. Recent Trends in Educational Technology and Administration Srikanta Patnaik, Fred Paas, 2023-06-30 The management of an educational system is referred to as educational administration. It includes providing leadership for student education, establishing curriculum, carrying out assessments, and managing people and material resources to reach certain goals. It also includes the management of processes within a school system to ensure specific outcomes are achieved. Moreover, educational administration is critical because it allows schools to present opportunities for students to study. As technological advancements drive digital transformation and globalization, teachers may assist students in acquiring the

technological skills needed to succeed in future careers Also the significance of integrating technology in education administration is to efficiently reach more students and facilitate customized learning through MOOCs Virtual classrooms video courses and augmented reality AR etc It not only helps in imparting education but also helps in monitoring the student performance by collecting respective data This book approaches Educational Technology Administration while keeping in view these requirements It not only identifies the gaps in existing educational policies but also suggests new research directions to make the teaching learning procedure more efficient accessible and easier It further recommends development of new innovative policies practices and reforms encouraging the scope of experimentation while ensuring quality This book is targeted towards educators working closely in this field researchers policy makers and academic administrators working collaboratively towards the enhancement of the education system
