Sadiku, Cajetan M. Akujuobi, 2022-08-29 This textbook presents computer networks to electrical and computer engineering
students in a manner that is clearer more interesting and easier to understand than other texts All principles are presented
in a lucid logical step by step manner As much as possible the authors avoid wordiness and giving too much detail that could
hide concepts and impede overall understanding of the material Ten review questions in the form of multiple choice objective
items are provided at the end of each chapter with answers The review questions are intended to cover the little tricks which
the examples and end of chapter problems may not cover They serve as a self test device and help students determine how
well they have mastered the chapter **Solutions Manual to Accompany "Communications Systems: an Introduction**

Wavelet Transform Systems and Their Applications Cajetan M. Akujuobi, 2022-02-02 This textbook is unique because of
its in depth treatment of the applications of wavelets and wavelet transforms to many areas across many disciplines The book
is written to serve the needs of a one or two semester course at either the undergraduate or graduate level The author uses a
very simplified accessible approach that de emphasizes mathematical rigor The presentation includes many diagrams to
illustrate points being discussed and uses MATLAB for all of application code The author reinforces concepts introduced in
the book with easy to grasp review questions and problems tailored to each specific chapter for better mastery of the subject
matter This book enables students to understand the fundamental concepts of wavelets and wavelet transforms as well as
how to use them for problem solutions in digital signal and image processing mixed signal testing space applications
