Wanielista, Robert Kersten, Ron Eaglin, 1996-09-28 Complete up to date coverage of the critical issues of water quality emphasizing the illustration and application of both hydrologic and economic water management techniques Using a fundamentals through applications approach the book includes worked examples case studies and problems Current methodologies such as the use of a spreadsheet in hydrology and the use of the Internet in data collection are covered in this text Analytical Solutions for Multidimensional Transport of a Four-member Radionuclide Decay Chain in Ground Water A. Berge Gureghian, 1987 *Teaching Engineering, Second Edition* Phillip C. Wankat, Frank S. Oreovicz, 2015-01-15 The majority of professors have never had a formal course in education and the most common method for learning how to teach is on the job training This represents a challenge for disciplines with ever more complex subject matter and a lost opportunity when new active learning approaches to education are yielding dramatic improvements in student learning and retention This book aims to cover all aspects of teaching engineering and other technical subjects It presents both practical matters and educational theories in a format useful for both new and experienced teachers It is organized to start with specific practical teaching applications and then leads to psychological and educational theories The practical orientation section explains how to develop objectives and then use them to enhance student learning and the theoretical orientation section discusses the theoretical basis for learning teaching and its impact on students Written mainly for PhD students and professors in all areas of engineering the book may be used as a text for graduate level classes and professional workshops or by professionals who wish to read it on their own Although the focus is engineering education most of this book will be useful to teachers in other disciplines Teaching is a complex human activity so it is impossible to develop a formula that guarantees it will be excellent However the methods in this book will help all professors become good teachers while spending less time preparing for the classroom This is a new edition of the well received volume published by McGraw Hill in 1993 It includes an entirely revised section on the Accreditation Board for Engineering and Technology ABET and new sections on the characteristics of great teachers different active learning methods the application of technology in the classroom from clickers to intelligent tutorial systems and how people learn

Reports, 1994 *Data governance in African health research: ELSI challenges and solutions* Donrich Thaldar, Simisola Oluwatoyin Akintola, Bonginkosi Shoji, 2025-04-02 Data protection legislation is increasingly being enacted in African

countries Additionally the African Union recently adopted the AU Data Protection Framework How are these legal and policy developments influencing established ethics notions about data governance in health research For example is broad or tiered consent to research participation sufficient or does new legislation require specific consent How do individual rights in data interact with communitarian values Should health research receive special treatment from a data protection regulatory perspective How should African countries approach AI in healthcare This research topic aims to identify and analyse ELSI challenges in contemporary data governance in African health research and to develop possible solutions for such challenges Articles in this research topic will aim to assist policy makers health researchers and ELSI practitioners in Africa to better navigate and where relevant improve data governance in African health research Perspective style articles as well as more in depth research articles are welcome While articles can analyse fundamental theoretical issues application oriented articles and articles that explore lessons learnt in practice are especially encouraged Authors should address one or more of following inter related themes within the research topic of data governance in African health research 1 Conflicts between new legal and policy developments and established ethics notions 2 Africanisation decolonisation and intra African rule harmonisation 3 The evolution of informed consent and the role of trust 4 The various legal ethical and social dimensions or meanings of data and how these dimensions interact 5 Power and control This includes individual institutional ethnic community and national claims to data It also includes existing and proposed structures of control of data such as data trusts and data transfer agreements DTAs 6 Engagement with data protection regulatory authorities 7 Artificial intelligence and Big Data

Consultants and Consulting Organizations Directory, 2007 *Programming for Software Sharing* D.T. Muxworthy, 2012-12-06 Most computer users are familiar with the problems of sharing software with others and the transfer of programs from one computing environment to another Software represents an ever increasing proportion of the cost of computing and these costs tend to nullify all the economic advantages flowing from the wider availability of cheap hardware Years ago it was hoped that the widespread use of high level programming languages would help in alleviating the problems of software production by increasing productivity and by making it simpler for users with similar problems to be able to use the same programs possibly on different types of machines It is a common experience that in practice this simple optimism has proved to be unfounded It was these considerations which led us in 1979 to organize a two week course on Programming for Software Sharing at the European Community Joint Research Centre Ispra Establishment Italy forming part of the regular series of Ispra Courses With prominent invited lecturers local contributions and through discussion sessions we examined with an audience from many countries the problems involved in the sharing and transfer of software as well as suggesting ways of overcoming them In our local environment we are faced daily with three problems both from engagements in software exchange in the scientific technical field on a Europe wide or world wide basis and from work with programming techniques and contributions to the international standardization process *Cyber Security and Global Information*
