Mao Tse-Tung's Theory of Dialectic F.Y.K. Soo, 2012-12-06 The year 1979 ushered in a new phase in China's long and continuous revolution Currently this new phase is being symbolically referred to by the Chinese leaders themselves as the New Long March a continuation of the legendary and historical Long March in terms of modernization which comprises the Four Modernizations Agriculture Industry Science and Technology and Military Defense Such an all encompassing attempt at modernization may appear to some at least to be something new or may indicate a radical shift in her policy But upon closer examination this decision seems only to reflect an historical continuity in terms of the two major long term goals of the Chinese Revolution national independence and modernization or industrialization The former would make China strong the latter wealthy For ever since the Opium War in 1840 and throughout the Revolutions of 1911 and 1949 China has always pursued these two revolutionary

goals though with different emphases at different times This has been especially true during the past three decades as this twofold goal has dictated all of China's important policies both domestic and foreign In other words while the concrete policies may have appeared to be lacking in unity at times they have been formulated with the specific intent of achieving national independence and modernization From this perspective the New Long March marks the passage of post Mao China beyond the transition of succession toward the continued pursuit of the same revolutionary goals

Euhemerism and Its Uses Syrithe Pugh, 2021-03-18 Euhemerism and Its Uses offers the first interdisciplinary focussed and all round view of the long history of an important but understudied phenomenon in European intellectual and cultural history Euhemerism the claim that the Greek gods were historically mortal men and women originated in the early third century BCE in an enigmatic and now fragmentary text by the otherwise unknown author Euhemeros This work the Sacred Inscription has been read variously as a theory of religion an atheist's manifesto as justifying or satirizing ruler worship as a fantasy travel narrative and as an early utopia Influencing Hellenistic and Roman literature and religious and political thought and appropriated by early Christians to debunk polytheism while simultaneously justifying the continued study of classical literature euhemerism was widespread in the middle ages and Renaissance and its reverberations continue to be felt in modern myth theory Yet though frequently invoked as a powerful and pervasive tradition across several disciplines it is still under examined and poorly understood Filling an important gap in the history of ideas this volume will appeal to scholars and students of classical reception mediaeval and Renaissance literature historiography and theories of myth and religion
