Une Société sous Surveillance Les Intellectuels Et La Stasi:

Une société sous surveillance Sonia Combe, 2015-09-01 Consacre l'étude de la violence policière dans un état de type soviétique Une société sous surveillance analyse plus particulièrement le comportement de mandarins et allemands face au pouvoir et l'idéologie dominante Vingt dossiers établis par la police politique de 1950-1989 concernant des intellectuels constituent la matière de cet ouvrage Leur minutieux examen révèle tant les pratiques répressives dont fut notamment victime le philosophe Ernst Bloch l'auteur de Principe d'espérance que les formes de résistance au contraire ou l'inverse les différents modes de collaboration avec la Stasi C'est donc partir de ces biographies rédigées par une plume policière que le lecteur entre dans l'univers d'une société placée sous surveillance Mais au-delà des comportements individuels c'est avant tout la façon dont la Stasi a exercé son pouvoir qui est ici examinée et plus généralement la question des liens que les intellectuels peuvent entretenir avec l'état Historienne de la période contemporaine et spécialiste des pays de l'Est Sonia Combe est l'auteur de Archives interdites Albin Michel 1994

A State of Secrecy Alison Lewis, 2021-10 Secret police agencies such as the East German Ministry for State Security kept enormous quantities of secrets about their own citizens relying heavily on human modes of data collection in the form of informants To date little is known about the complicated and conflicted lives of informers who often lived in a perpetual state of secrecy This is the first study of its kind to explore this secret surveillance society its arcane rituals and the secret lives it fostered Through a series of interlocking in-depth case studies of informers in literature and the arts A State of Secrecy seeks answers to the question of how the collusion of the East German intelligentsia with the Stasi was possible and sustainable It draws on extensive original archive research conducted in the BStU Stasi Records Agency as well as eyewitness testimony literature and film and uses a broad array of methods from biography sociology cultural studies and literary history to political science and surveillance and intelligence studies In teasing out the various kinds of entanglements of intellectuals with power during the Cold War Lewis presents a microhistory of the covert activities of those writers who colluded with the secret police

The Stasi Mike Dennis, Norman Laporte, 2014-07-30 The East German Ministry of State Security popularly known as the Stasi was one of the largest and most intrusive secret police systems in world history So extensive was the system of surveillance and control that in any given year throughout the 1970s and 1980s about one in fifty of the 13 million East German adults were working for the Stasi either as an officer or as an informer Drawing on original sources from the Stasi archives and the recollections of contemporary witnesses The Stasi Myth and Reality reveals the intricacies of the relationship between the Stasi enforcers its agents and its targets victims and demonstrates how far the Stasi octopus extended its tentacles into people's lives and all spheres of society The origins and developments of this vast system of repression are examined as well as the motivation of the informers and the ways in which they penetrated the niches of East German society The final chapters assess the ministry's failure to help overcome the GDR's inherent structural defects and demonstrate how the Stasi's bureaucratic procedures

contributed to the implosion of the Communist system at the end of the 1980 s The Stasi Charles River Charles River Editors,2018-02-26 Includes pictures Includes online resources and a bibliography for further reading T he Stasi often used a method which was really diabolic It was called Zersetzung and it s described in another guideline The word is difficult to translate because it means originally biodegradation But actually it s a quite accurate description The goal was to destroy secretly the self confidence of people for example by damaging their reputation by organizing failures in their work and by destroying their personal relationships Considering this East Germany was a very modern dictatorship The Stasi didn t try to arrest every dissident It preferred to paralyze them and it could do so because it had access to so much personal information and to so many institutions Hubertus Knabe German historian The history of East Germany was closely intertwined with the development of its security services specifically the Stasi In an era of totalitarian countries dominated by repressive state agencies the Stasi stood out for its size and the sheer breadth and depth of its surveillance Films such as Das Leben der Anderen The Lives of Others encapsulated post unification attitudes and conceptions of both life in East Germany and the activities of the Stasi Despite its notoriety the legacy of the Stasi is contested in modern Germany Former West Germans and Westerners more generally closely align the East German state and the Stasi framing a Stasi State Those in the former East Germany however resent the patronizing attitudes and conflation of the two institutions preferring to focus on the social elements of the East German state Uwe Spiekermann of the German Historical Institute succinctly sets out the impressions of many when considering East Germany and its culture of surveillance In retrospect the Stasi has become a symbol for the GDR East Germany The East German State Security Service or Staatssicherheitsdienst in German abbreviated to Stasi was formed in 1950 It purported to be the state s shield and sword and closely monitored much of the population for the next 40 years Some of the figures are startling By the end of the 1980s Stasi files were kept on six million out of 18 million inhabitants When the Stasi archives were opened in the 1990s files were discovered that stretched for 178 kilometers Over the course of East Germany s existence up to two million people acted as spies and 90 000 people worked at the Ministry not to mention the numerous unofficial informers East Germany also had a much feared foreign intelligence arm of its intelligence services the HV A German Hauptverwaltung A or central department which proved expert at infiltrating West German society and running operations in numerous other countries But why did the Stasi form and how did it prove so effective Answering those questions requires understanding the unique circumstances in which East Germany was formed as well as politics in Germany at the end of World War II and the start of the Cold War The Stasi The History and Legacy of East Germany s Secret Police Agency examines the history of one of the most notorious agencies in history Along with pictures depicting important people places and events you will learn about the Stasi like never before **Stasiland** Anna Funder,2009 Stasiland est un voyage au c ur de la Stasi la redoutable police secr te de l ex RDA Malgr la chute du mur de Berlin cette terrible poque hante encore victimes et bourreaux Ainsi Miriam Weber 16 ans retenue plusieurs jours pour un

interrogatoire après avoir tenté de franchir le mur Herr Winz nostalgique du communisme cette époque bien sûr tous avaient un travail Ou encore Frau Paul séparée de son fils hospitalisé de l'autre côté du mur Témoinages trajectoires Anna Funder nous entraîne au cœur d'un régime camisole figé par la peur qui voulait contrôler jusqu'aux pensées de ses ressortissants Mais dans la mémoire enfouie de tout un peuple malgré le mur de silence qui a remplacé celui de la honte ce pays existe toujours Bienvenue en Stasiland

The Firm Gary Bruce, 2012-08-02 The Firm is the first book to trace the history of the Stasi at a district level the level closest to the population Based on previously inaccessible secret police files and interviews with former members of the East German security apparatus it provides an unparalleled picture of life in a totalitarian state

The Stasi David Childs, 1996-12-01 When the Berlin Wall fell in 1989 the inexorable march towards a united Germany began As part of this process the Stasi East German's secret police was disbanded and many of its henchmen arrested Among the most brutal and successful intelligence surveillance organizations of the Cold War Years the Stasi had informers in virtually every factory office military unit school university hospital and church The Stasi the first English language account of the East German secret police tells the story of the Stasi from its origins in the dreaded Cheka the notorious Russian secret police to its abolition in 1989 Based on years of personal experience with the Stasi interviews with former Stasi members and their victims archival research interviews with members of the German parliament and street interviews conducted in several East German towns David Childs and Richard Popplewell uncover a fascinating yet horrifying story of unbridled power misguided idealism treachery widespread opportunism and the occasionally courageous dissenter
