Adeyemo,2021-12-28 There is little literature on the development of banking regulation in Nigeria or the scope of powers of the Central Bank of Nigeria which is its core banking sector regulator The critical impetus of this book is to contribute to the literature of this area with a detailed exploration of the Nigerian regulatory architecture In addition the book also engages in a comparative analysis with two emerging economies in Africa South Africa and Kenya It also considers the UK and the US as comparator jurisdictions in light of their regulatory responses to the global financial crisis of 2008 This book contributes to the ongoing discourse in this area by exploring in detail the theoretical underpinnings of regulation and supervision to determine whether there is an understanding of what constitutes effective regulation in these jurisdictions Given that Nigeria is the core jurisdictional focus a historical account of banking exchanges from the pre colonial era to more recent times is provided Offering an understanding of how political local and economic settings in conjunction with the theories of regulation have impacted and influenced regulatory development in Nigeria the book engages in an examination of Nigeria s historical experiences with bank failures including the banking crisis it experienced in 2008 The newly enacted Banks and Other Financial Institutions Act 2020 is also explored as part of this discourse Through a critical analysis of the law the book demonstrates that the Nigerian regulator has historically adopted a reactionary strategy instead of a proactive and pragmatic approach which is imperative for an effective regulatory regime The outcome of this analysis is that there are lessons to be learned and proposals are discussed in order to rethink the act of banking regulation **Developing Africa's Financial**

Mitchell,2020-02-04 Much scholarship on the British transatlantic slave trade has focused on its peak period in the late eighteenth century and its abolition in the early nineteenth or on the Royal African Company RAC which in 1698 lost the monopoly it had previously enjoyed over the trade During the early eighteenth century transition between these two better studied periods Humphry Morice was by far the most prolific of the British slave traders He bears the guilt for trafficking over 25 000 enslaved Africans and his voluminous surviving papers offer intriguing insights into how he did it Morice s strategy was well adapted for managing the special risks of the trade and for duplicating at lower cost the RAC s capabilities for gathering information on what African slave sellers wanted in exchange Still Morice s transatlantic operations were

expensive enough to drive him to a series of increasingly dubious financial manoeuvres throughout the 1720s and eventually to large scale fraud in 1731 from the Bank of England of which he was a longtime director He died later that year probably by suicide and with his estate hopelessly indebted to the Bank his family and his ship captains Nonetheless his astonishing rise and fall marked a turning point in the development of the brutal transatlantic trade in enslaved Africans
